EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification:

Under the heading "Cross Reference to Related Application" on page 1 of the specification, the sentence under the heading has been changed to:

--This application is a divisional of U.S.S.N. 09/862,022, filed May 21, 2001, [now allowed] now U.S. Patent 6,630,047, the disclosure of which is herein incorporated by reference.--

2. The following is an examiner's statement of reasons for allowance: As argued and correctly noted by applicant, a double patenting rejection is inappropriate where the claims were previously restricted from the claims which were allowed in the earlier application. Additionally, while the preamble defines the meets and bounds of the scope of the claim, the contact of the substrates together is deemed all that is necessary to clearly define a bonding step as the contacting and setting of the polymer disposed between the substrates would have been understood to bond the substrates together. The rejection under 112, second paragraph is hereby withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeff H. Aftergut whose telephone number is 571-272-1212. The examiner can normally be reached on Monday-Friday 7:15-345 pm.
